MAKAHŪ'ENA ESTATES SUBDIVISION BREAKS GROUND

Construction work is underway at Makahū'ena Estates, CIRI Land Development Company's (CLDC) 13-acre oceanfront subdivision in Kauai, Hawaii. The work follows a four-year process to receive project approval from local authorities. Recognizing the importance and responsibility of respecting the land, community and culture, CLDC took a comprehensive approach to the project, engaging engineers and archeologists, community members and county, state and federal agencies.

CIRI acquired the former Coast Guard property in 1996 as part of the 1976 Cook Inlet Land Exchange, which enabled the company to bid on federal surplus properties throughout the U.S. Makahū'ena Estates will consist of 10 single-family lots of at least one acre each, situated on land at Makahū'ena Point on the southernmost tip of Kauai. "It's the last large parcel of undeveloped land in the area," said CIRI's Chad Nugent, vice president, Real Estate. "It is truly a one-of-a-kind property."

Initially, the land on which Makahū'ena Estates would be built was platted for 25 single-family lots and several other larger parcels. Recognizing the inherent beauty and natural resources of the coastal property, and in furtherance of the goal of a sensitive approach to development, CLDC went through the permitting process to combine the parcels and reduce the density, resulting in fewer overall single-family lots. After analyzing many configurations, a 10-lot subdivision was found to provide the best value to the project as it allowed for significantly larger homes than the original configuration.

An extensive site analysis that took into account the area's natural environment, archaeological and

cultural history, infrastructure requirements and potential secondary impacts (jobs and employment, population and housing) was conducted prior to project commencement. CLDC and its local consultants performed outreach to inform members of the community and gather community concerns. "Although the process to obtain approvals for the subdivision was lengthy, we maintained strong support from the community," Nugent said.

Work began the first week of October and will continue through June 2017. Initial sitework includes installation of the main entrance and a future public parking area, as well as clearing and grading portions of the site to be used as a staging area

when the main work commences. CLDC will serve as developer; Earthworks Pacific Inc., a Hawaii-based civil construction expert, will perform the work.

The bulk of the work will involve grading the site to make the lots buildable, along with installation of numerous rock retaining and privacy walls. This work will take place Jan. 1–March 31, 2017, to accommodate the breeding season of migratory shorebirds (April 1–Dec. 31), when no ground disturbance construction may take place in close proximity to their underground nests. That leaves a narrow three-month window in which to accomplish the majority of the work. The actual roadway improvements and utilities for the project will be finished just prior to the expected June 2017 completion date.

"To grade the site we have to excavate and place more than 30,000 cubic yards of lava rock," Nugent said. The project plan assumes balancing the site, meaning excavation material from the higher portions of the site will be placed in lower areas. This technique avoids the cost and disruptions associated with trucking large quantities of fill on or off the site.

"It is a challenging project considering it's a small subdivision, but we selected a great team of local experts and are excited to move this project forward on time and within budget," Nugent said.

Makahū'ena Estates, located on the warm, sunny side of Kauai, with views of mountain ranges, is an ocean-view property near beaches, golf courses, shopping and dining. For information, including construction updates, visit www.makahuenaestates.com.

PRESIDENT'S MESSAGE

Sophie Minich, CIRI president and chief executive officer

As the days become cooler and shorter, most of us start to prepare for winter. The chill in the air also means it's time, once again, for CIRI and The CIRI Foundation's annual Friendship Potlatches. First held in 1985, the Friendship Potlatches offer CIRI shareholders the opportunity to socialize and celebrate important cultural traditions with family and friends. To best serve our shareholders, we offer three opportunities to attend – Oct. 8 in Kenai, Oct. 16 in Anchorage and Nov. 5 in Puyallup, Wash.

Next month, you have the power to shape our future – but only if you vote! Tuesday, Nov. 8 is Election Day, when we vote to elect the U.S. president and vice president, U.S. senators, U.S. representatives, state senators and state representatives.

According to information provided by Get Out The Native Vote (GOTNV), a non-partisan effort to mobilize Alaska Native and American Indian voters, it is estimated that Alaska Native people constitute 14 percent of the statewide adult population.

According to GOTNV, if all Native people voted during a normal turnout year (in which 55 percent of non-Natives voted), approximately 25 percent of the electorate at the polls would be Native. One vote really can make all the difference!

On Alaska ballots will also appear Ballot Measure 1, known as the Permanent Fund Dividend (PFD) automatic voter registration

“Next month, you have the power to shape our future - but only if you vote! Tuesday, Nov. 8 is Election Day, when we vote to elect the U.S. president and vice president, U.S. senators, U.S. representatives, state senators and state representatives.”

– SOPHIE MINICH

initiative. The initiative would allow eligible Alaska residents to register to vote when they sign up to receive the PFD. CIRI supports Ballot Measure 1, which has the potential to significantly improve the overall voter registration rate in Alaska, including the number of Alaska Native people registered to vote, as well as the accuracy of Alaska's voter rolls.

Ballot Measure 1 has no impact on the PFD amount and includes an opt-out feature so that a PFD applicant may decline to be registered to vote via his/her PFD. For more information, visit www.PFDvoter.com.

For those whose families plan to participate in Halloween trick-or-treating, I encourage you to take measures to stay safe. As your children go door to door, keep in mind these safety tips from the American Academy of Pediatrics:

- A parent or responsible adult should always accompany young children on their neighborhood rounds.
- Only go to homes with a porch light on and never enter a home or car for a treat.

- Consider adding reflective tape or striping to costumes and trick-or-treat bags for greater visibility.
- Obtain flashlights with fresh batteries for all children and their escorts.
- Wait until children are home to sort and check treats. Though tampering is rare, a responsible adult should closely examine all treats and throw away any spoiled, unwrapped or suspicious items.

I wish you all a wonderful fall!

Sophie Minich

CIRI in the COMMUNITY

Now in its 33rd year, the 2016 CIRI Golf Classic raised slightly more than \$100,000 for local youth and education nonprofits. The funds will support three organizations: United Way's "90% by 2020" initiative, the Alaska Native Heritage Center's "Walking in Two Worlds" program and Volunteers of America's "Camp Hope."

This year's Golf Classic was held Aug. 5 at the Moose Run Golf Course in Anchorage. Through the years, the tournament has raised about \$1.9 million.

"All children need support in order to fulfill their potential in school and in life," said CIRI President and CEO Sophie Minich. "We are so thankful to the businesses and individuals who came together for this year's Golf Classic, and to the youth and education nonprofits that provide academic enrichment, social support and life skills to help our young people achieve their dreams."

For more information about the CIRI Golf Classic, visit www.cirigolf.com.

CIRI YOUTH CREW IMPROVES HABITAT ON THE KENAI PENINSULA

Members of the Student Conservation Association's (SCA) 2016 CIRI Youth Crew this summer tackled a month-long environmental challenge on Alaska's Kenai Peninsula that met a critical habitat need and improved access for visitors to the Kenai National Wildlife Refuge (KNWR).

The mission of the SCA is to build the next generation of conservation leaders and inspire lifelong stewardship of our environment and communities by engaging young people in hands-on service to the land. This nationwide program was founded in 1957; crews have been active in Alaska since the mid-1980s.

Instrumental in shifting the focus of the Alaska program was former CIRI president and CEO Margaret "Margie" Brown, who serves on both the CIRI and SCA Board of Directors. "Six years ago, our Anchorage

office opened," said Eileen Kazura, SCA Alaska program manager. "Prior to that, opportunities [in Alaska] were open to anyone, and most individuals came to us from the Lower 48. Margie worked with us to provide opportunities specifically for Alaskan and Alaska Native youth."

In 2010, SCA fielded one Alaska crew of six; in 2016, six teams were fielded in locations throughout the state. "It shifts year to year depending on funding levels, but the past few summers we've had anywhere from 40 to 60 participants," Kazura said. "The program has really grown."

CIRI has worked with SCA since 2010, sponsoring crews of Alaska Native youth ages 15-19 each summer. 2016 funding was a joint effort between CIRI and KNWR. This summer, the CIRI Youth Crew constructed a 400-foot turnpike at Marsh Lake, a previously inaccessible body of water near the town of Sterling. The team of six was aided by two SCA crew leaders.

The project resulted from 2015's destructive Card Street fire, which scorched 9,000 acres. Refuge staff realized that a proposed fire break – a strip of land on which flammable vegetation and debris have been removed so it can act as a barrier in the event of a wildfire – aligned with an existing plan to build a trail to Marsh Lake.

A bulldozer initially cut a three-mile line through spruce and birch forest from the road to the Marsh Lake area. However, the final 400 feet to the edge of the lake remained undisturbed

CITC PARTNERS WITH COVENANT HOUSE TO CREATE A HOME FOR HOMELESS YOUTH

As part of its commitment to double the amount of transitional housing available to homeless youth in Anchorage, on Sept. 23, CIRI-affiliated nonprofit Cook Inlet Tribal Council (CITC), along with Covenant House Alaska, celebrated the grand opening of Dena'ina House, a 26-bed facility in downtown Anchorage.

"We saw we didn't need to reinvent the wheel to support our homeless youth," said CIRI shareholder and CITC President and CEO Gloria O'Neill. "By joining forces with Covenant House, we knew we could leverage our staff and expertise and bring the strength of Alaska Native values and culture to help create a larger and more sustainable program."

Covenant House's Rights of Passage (ROP) program teaches youth ages 18-21 how to live independently – doing their own shopping, cooking and cleaning, sharing meals and developing friendships. While learning these crucial life skills, ROP residents must complete their education and maintain employment.

It's a proven model that works. Historically, 80 percent of ROP graduates exit the program employed and equipped to live on their own in stable housing. Conversely, according to a 2014 report prepared for the U.S. Department of Housing and Urban Development, unstable housing creates a negative feedback loop: unstable housing can compromise physical and mental health, poor physical and mental health can limit employment, and limited employment can lead to continued housing instability.

Over the past three years, the average daily census at Covenant House has increased 58 percent. Many residents are from rural Alaska, and nearly all of them are Alaska Native. ROP serves 14 youth with an additional 15 waitlisted.

"Six years ago, we opened our Dena'ina Transitional Model for Youth but it wasn't being used to capacity," said Kelly Hurd, senior development director for CITC. "When we asked ourselves who's good at housing vulnerable youth, Covenant House was the obvious answer."

Under a 10-year operating agreement with Covenant House, CITC purchased the property in downtown Anchorage to double ROP's housing and services. CIRI-affiliated nonprofit Cook Inlet Housing Authority served as project manager. Culturally responsive support and services to Alaska Native ROP residents will be provided by CITC's Youth Education and Employment Services department.

Business executives, government officials, nonprofit leaders and members of the Anchorage community packed the first floor of the Dena'ina House during its grand opening celebration. Former CIRI Board chair, Dena'ina Elder, CIRI shareholder and current CITC Board chair Clare Swan led the group in a blessing. "This (Dena'ina House), for me, will be a place where people see each other and hear each other," she said.

Joy, a current ROP resident, served as youth speaker. "We are here to celebrate the fact that we made it," she said. "This feeling, this view from the top of the mountain, was worth the climb. As I look at the possibilities, I smile. This might be a temporary place, but it's my middle and I want to make it count."

For more information about the Dena'ina House, visit www.citci.org.

SHAREHOLDER SPOTLIGHT: DEB WINKELMAN

After 25 years as an elementary-school teacher, Deb Winkelman was looking forward to retirement. But it wasn't the life of leisure she envisioned. "I knew I wanted to own my own business," she said. So this CIRI shareholder, originally from McGrath, Alaska – a village on the Kuskokwim River 220 miles northwest of Anchorage – plunged headfirst into a venture that would take her throughout Alaska and to Canada, Hawaii and the Lower 48.

ArcticZone Drone utilizes unmanned aerial vehicles, known as UAVs or drones, for aerial photography, videography and inspection. Winkelman's interest in this emerging field was piqued after watching a YouTube video of the Kuskokwim 300 sled dog race that was filmed using a drone.

"I thought it was so cool. I knew it could open up a world of possibilities," she said. Winkelman's partner, Chris Coyle, employs infrared inspection technology in his work as a radiographer/electronic technician, "and I started thinking about all the uses of aerial thermography – cell towers, pipelines, home inspections. It has unlimited potential."

On Aug. 29, 2016, the new small drone rule for non-hobbyists, known as the Small Unmanned Aircraft System (UAS) Rule (Part 107), became effective. Under previous regulations, commercial drone operators had to qualify for a private pilot's license – a requirement that could cost as much as \$10,000. The new regulations require operators to receive UAS Operator certification, which requires passing an aeronautical knowledge test at a Federal Aviation Administration (FAA)-approved knowledge testing center and paying a \$150 testing fee.

Winkelman wasted no time getting her license. "I retired [from the Anchorage School District] in the spring. The new regulatory framework was finalized June 21, and the regulations were implemented Aug. 29. The waiting list [to take the test] in Anchorage was tremendous, so I flew to Fairbanks and took and passed the exam Aug. 30. I may be one of only a handful of women that has taken and passed the test so far in Alaska, and probably the only Alaska Native woman of Athabascan descent and CIRI shareholder."

The transition from educator to drone pilot isn't as major a shift as one might think. Winkelman's father worked for Wien Air (the first airline in

CIRI SHAREHOLDER HANDBOOK

CIRI SHAREHOLDER HANDBOOK AVAILABLE ONLINE

Have you ever wanted to know more about the CIRI mask? Wonder what your shareholder identification number means? Curious about descendant and youth opportunities? Have questions about stock gifting or estates and wills?

CIRI's Shareholder Handbook has been prepared by CIRI to provide shareholders convenient access to information about the company, the Alaska Native Claims Settlement Act, corporate policies and procedures, and much more.

To view the handbook, visit www.ciri.com/shareholders/being-a-shareholder/shareholder-handbook.

2016 CIRI YOUTH ART CONTEST

'WHAT DO YOU WANT TO BE WHEN YOU GROW UP?'

A dual career as a professional baseball player and a business owner

Adam J. Aguilar-Crook, Athabascan Redlands, Calif.

First Place Award

Category: 9 to 12 years of age
Parent: Angela Aguilar (mother)

An event planner

Annaliese Grace Kashevarof, Aleut Monticello, Minn.

First Place Award

Category: 9 to 12 years of age
Parent: Norman Dale Kashevarof Jr. (father)

A professional football player

Colten James Nickerson, Athabascan Middleville, Mich.

Second Place Award

Category: 5 to 8 years of age
Parent: Brandee Luann Beard (mother)

GREAT AMERICAN SMOKEOUT EVENT

11a.m.–1 p.m. | Thursday, Nov. 17
Anchorage Native Primary Care Center lobby
4315 Diplomacy Dr.

You don't have to quit tobacco cold turkey.

Join others across the nation using the Great American Smokeout as a day to quit tobacco forever. Talk with Southcentral Foundation tobacco treatment specialists about ways you can become tobacco free. Just for stopping by you are eligible to win prizes such as a frozen turkey or Little Chief smoker!

For more information, please contact SCF Health Education at (907) 729-2689 or visit southcentralfoundation.com.

A professional football player for the Denver Broncos

Michael Christopher Saam, Athabascan Palmer, Alaska

Second Place Award

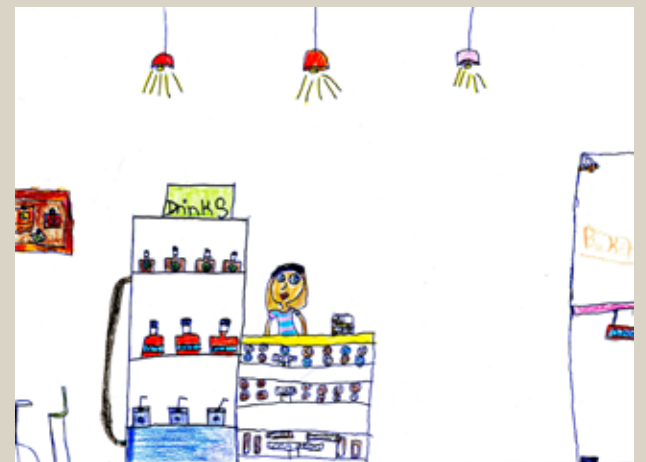

Category: 9 to 12 years of age
Parent: Teresa Lynn Stephan (mother)

A singer

Citlali Ella Elias, Inupiaq Anchorage, Alaska

Category: 9 to 12 years of age
Parent: Jennine Janet Jordan (mother)

A bakery owner

Danica Jean Bonter, Yupik Cedar, Mich.

Category: 9 to 12 years of age
Parent: Samantha Marie Bonter (mother)

CIRI WISHES TO THANK THE PARTICIPANTS IN THIS YEAR'S YOUTH ART CONTEST. THE CONTINUED SUCCESS OF OUR COMPANY DEPENDS ON YOUNG SHAREHOLDERS AND DESCENDANTS WHO THINK CREATIVELY AND STRIVE FOR GREATNESS. WE APPRECIATE ALL OF THE YOUNG PEOPLE WILLING TO SHARE THEIR VISIONS FOR THE FUTURE WITH US!

DEB WINKELMAN, CONTINUED FROM PAGE 03

Alaska, which folded in 1985), and both of her brothers became pilots. "I grew up surrounded by aviation. I feel like drones are ushering in a brand new era of aviation – something new to the airspace," Winkelman said.

Drones are a serious investment. Quality models that employ stabilized cameras for shooting video and stills start in the low thousands. Add-ons, such as zoom lenses and thermal imaging cameras, cost hundreds extra. "I was nervous at first," Winkelman admitted. "I talked to numerous people who told me, 'Oh, I had a drone and it flew away.' I have a friend who has a flight business who flew some clients to a remote site, and their drone crashed into the water."

Training, she emphasized, is key. "There are definitely safety guidelines you need to follow – FAA rules and regulations, situation-based best practices and emergency protocols." Winkelman started with a week-long training program in Colorado, followed by months of travel across Alaska and to Arizona, California, Canada, Hawaii, New Mexico, Oregon and Washington amassing a portfolio.

This summer, ArcticZone Drone documented the Matanuska River erosion that led to numerous properties in the Butte area being threatened by floodwaters. In late August, Alaska Gov. Bill Walker issued a state disaster declaration to support the Mat-Su Borough's request for state assistance. "We were actually quoted in the governor's disaster plan for helping to bring awareness to the situation," Winkelman said.

As a teacher, Winkelman encouraged her students to be at the forefront of new technologies. "The challenge and excitement of this new industry is alluring, and to become part of something on the forefront of its release and use it to improve businesses and benefit the economy is rewarding," she said. "Young Alaskans can be trained, certified and become pilots using this type of aircraft without ever leaving their hometowns. They have grown up in a world in which technological change and advancement is second nature to them, and the transition to using UAVs would be seamless. I'm excited to see where this new era of aviation takes us."

SECURITY TIP

Most of us know not to respond to unsolicited requests for personal information (e.g., name, birthdate, Social Security number, credit card or bank account information) by phone, mail, email or online.

To protect our shareholders' confidentiality, it is equally important that we know who we are speaking to before releasing any information. That's why CIRI Shareholder Relations staff ask questions intended to confirm your identity before discussing your CIRI records. The questions asked pertain to a variety of information contained in your CIRI stock records, such as verifying your shareholder identification number, which is one reason it's so important to treat your shareholder identification number confidentially. **However, like most legitimate businesses, CIRI will never ask you for your full Social Security number as a means of verifying your identity.**

If for any reason you are unsure whether you are communicating with a CIRI staff member, simply advise that you will contact CIRI directly. Then, call CIRI Shareholder Relations as soon as possible by dialing (907) 263-5191 or 1-800-764-2474 (press "0") and ask to speak to someone about your concerns.

Any legitimate business, including CIRI, should always be happy to answer identifying questions or to have you call them back at the number you have for that organization. ☰

IN MEMORY

Brian Leslie Buck, 57

Brian Leslie Buck passed away Aug. 19 at NorthBay Medical Center in Fairfield, Calif. Mr. Buck was born Nov. 5, 1958, in Anchorage. He is survived by his children, Brian Don Buck and Crystal Anne Buck; and sister, Brenda Martin.

Geraldine Kiyutelluk, 90

Geraldine Kiyutelluk passed away Sept. 22 at the Alaska Native Medical Center in Anchorage. Ms. Kiyutelluk was born Aug. 14, 1926, in Shishmaref, Alaska. She is survived by her children, Harriett Jean Gales, Eva Leonard, Dolly Kiyutelluk, Arlene (Kiki) Mae Kiyutelluk, Warren (Mish) Kiyutelluk and Herbert (Mumpy) Lane Kiyutelluk; sister, Alma Mullins; and many grandchildren, great-grandchildren and great-great-grandchildren.

Jannefred Irene Morgan, 68

Jannefred Irene Morgan passed away Aug. 14 at Meadow Park Care Facility in Saint Helens, Ore. Ms. Morgan was born on May 29, 1948, in Seattle. She is survived by her son, Matthew D. Culver; daughter-in-law, Angie Culver; sister, Lois Terrill; sister-in-law, Michelle Palmer; granddaughter, Shawna Culver; and four nieces and two nephews.

Clarence "Al" Alfred Thiele, 58

Clarence "Al" Alfred Thiele passed away June 28 at home in Nampa, Idaho. Mr. Thiele was born on Feb. 15, 1958, in Fairbanks, Alaska. He is survived by his sister, Linda Caswell; brother, Dryke Richard Thiele; and stepfather, Harry Manning.

Condolences

GET OUT THE NATIVE VOTE

Raise your voice and be heard!

On Tuesday, Nov. 8, we are called to exercise one of our basic rights of citizenship by voting for the candidates – at the national, state and local level – we believe will best lead us.

Voting is both a right and a responsibility. Our government relies on citizen participation. Whether you vote or not, a candidate will be elected – and that person will make decisions that may affect you and this country for many years to come.

Alaska polls are open 7 a.m.-8 p.m. on Election Day (Nov. 8), or vote early Oct. 24-Nov 7.

For information, including sample ballots and how to find your polling place, visit www.elections.alaska.gov.

Vote Yes on Ballot Measure 1

Ballot Measure 1 would allow eligible Alaska residents to register to vote when they sign up to receive the Alaska Permanent Fund Dividend (PFD). Get Out The Native Vote and CIRI support the PFD Automatic Voter Registration initiative. For more information, visit www.PFDvoter.com.

wetland. The CIRI Crew worked to build a turnpike to elevate the final 400 feet of trail and complete access to the lake. The refuge anticipates high visitation and use of this trail due to its easy access point off the Sterling Highway.

The CIRI Crew lived and worked for four weeks in the KNRW, placing logs, hauling gravel and dirt using backpacks and buckets, then re-vegetating and naturalizing the surrounding area. The rainy weather in July and August presented the team

with a variety of challenges, primarily in the form of mud and muck in which they had to move many heavy logs. Near the end of the crew's time, particularly heavy rains drew out the final process of filling the turnpike with fill dirt, and the team and refuge staff began worrying they might not have time to complete the project. Thankfully, two days of clear skies enabled the team to end on a high note, fully completing the turnpike project and exceeding original production goals. This summer, Margie Brown, CIRI's Jason

CIRI YOUTH CREW, CONTINUED FROM PAGE 06

Brune, senior director, Land and Resources, and CIRI summer intern Ravynn Nothstine visited the crew on one of its final work days. "It's really fun to learn from and interact with people from CIRI, and we thank the corporation for its support," Kazura said. "It's important for people to know this program could not have gotten off the ground without CIRI."

For more information about SCA's Alaska program, visit www.thesca.org/serve/program/alaska-regional-crews.

CIRI BOARD OF DIRECTORS

SHAREHOLDER ESTATES

Also Missing

When CIRI shareholders pass away, gathering the information necessary to settle the stock estate is often a difficult task and may delay settlement. CIRI is looking to contact the individuals listed below in connection with the following estates:

- Estate of Thomas William Highsmith – Tonya Lorraine Highsmith
- Estate of Lily Mae Marshall – Kamette R. Myers and Christian James Marshall
- Estate of Richard Lloyd Sargent (aka Lloyd Richard Sargent) –
Derek Bernard Sargent and John Michael Sargent Clark
- Estate of Leonard Turgeon – Ashley Moore
- Estate of Lawrence M. Wade – Alex H. Wade

If your name appears above or you know the whereabouts of the individuals listed above, please contact CIRI Probate at (907) 263-5191 or toll free at 1-800-764-2474, and select option 4.

AFTER THE LOSS OF A LOVED ONE

We know the death of a loved one can be overwhelming. CIRI's Shareholder Relations department has gathered information to assist in coping with a recent death. For information on wills and probate, CIRI's estate settlement process, obituaries, death certificates, and other resources, visit www.ciri.com/shareholders/wills-and-gifts/estates-wills.

Because a majority of our shareholders live in Anchorage, we have focused on services available in Anchorage. Still, some of the websites and other information may be useful no matter where you live.
